

Hey there, FCC

I understand that you are considering over-ruling the New Jersey "Dont Call" rules because they are more stringent than the Federal rules.

Don't do it.

We don't need any more tele-marketers (and scam artists) calling us at all hours of the day.

I have multiple sclerosis and it is a strain for me to get to the phone. I don't need to struggle to a phone to hear a telemarketer.

Very truly yours
Lee G. McKnight
